WORK EXPERIENCE

IT PROJECT MANAGER

August 2019 – March 2020

MVideoEldorado Group – top electronics retailer in Russia

Moscow, Russia

- Led implementation of **improvements** in a web application for e2e **promo planning**.
- **Piloted new change management process** for commerce department.
- Valuated and prepared high-level designs for **3 new initiatives** (marketplace expansion, services for gamers, lottery). One of the projects with additional revenue of **\$50M/yr** was **approved by CEO** for execution in 2020.

DEMAND PLANNER; IT PRODUCT MANAGER

March 2017 – May 2019

Procter&Gamble

Moscow, Russia

- As Oral Care Demand Planner:
 - **Increased demand forecast accuracy** in Russia to the level of Central Europe **allowing 120% YoY category growth** with supply chain optimization projects (warehouses and production plant change) and redesign of business intelligence accumulation and analysis processes.
 - **Increased Case Fill Rate** of electronic products (20% of business, 2x yearly growth) in hot season **from 60% to 90%+** by introducing a new business process with logistics and sales.
 - **Reduced workload** of Demand and Supply Planners in the region **by 1.5 FTE equivalent** by automating regular analysis tasks with new tools and dashboards (Excel, Power BI).
- As IT Product Manager:
 - Owned a web app for promo planning with 200+ internal & external users.
 - Enabled **15% promo forecast accuracy increase** with implementation of product segmentation, new process for gifting season, reporting redesign and other improvements.
 - **Optimized workload** of logistics managers **by 6 FTE equivalent** with performance and UX improvements.
 - Initialized and led analysis of refactoring of the app.
- Received **1 Gold, 1 Pearl and 4 Silver Awards** for innovations in promo and initiatives planning.

IMPLEMENTATION PROJECT MANAGER (DEMAND PLANNING)

July 2016 – March 2017

Procter&Gamble

Moscow, Russia

Led cross-category projects on demand forecast accuracy improvement and customers' business analysis:

- **Enabled 30% improvement of BI quality** with a pilot of a new process and automation of analysis with Excel macros.
- The developed process and tools were fine-tuned by a global team and **reapplied in other EU countries**.

JUNIOR PROJECT MANAGER (ENGINEERING)

July-October 2015

Procter&Gamble

Novomoskovsk, Russia

Conducted feasibility study of Fairy, Myth and Mr. Proper production reorganization in the largest P&G plant in Eastern Europe:

- Proposed options for relocation and optimization of bottle blowing operations.
- One of the options was executed in 2017.
